

## Turn Off Auto-Download in AOL AIM Instruction Sheet: Windows Users

Simply follow these five steps to secure your AOL Instant Messenger from automatically downloaded files that may contain malware.

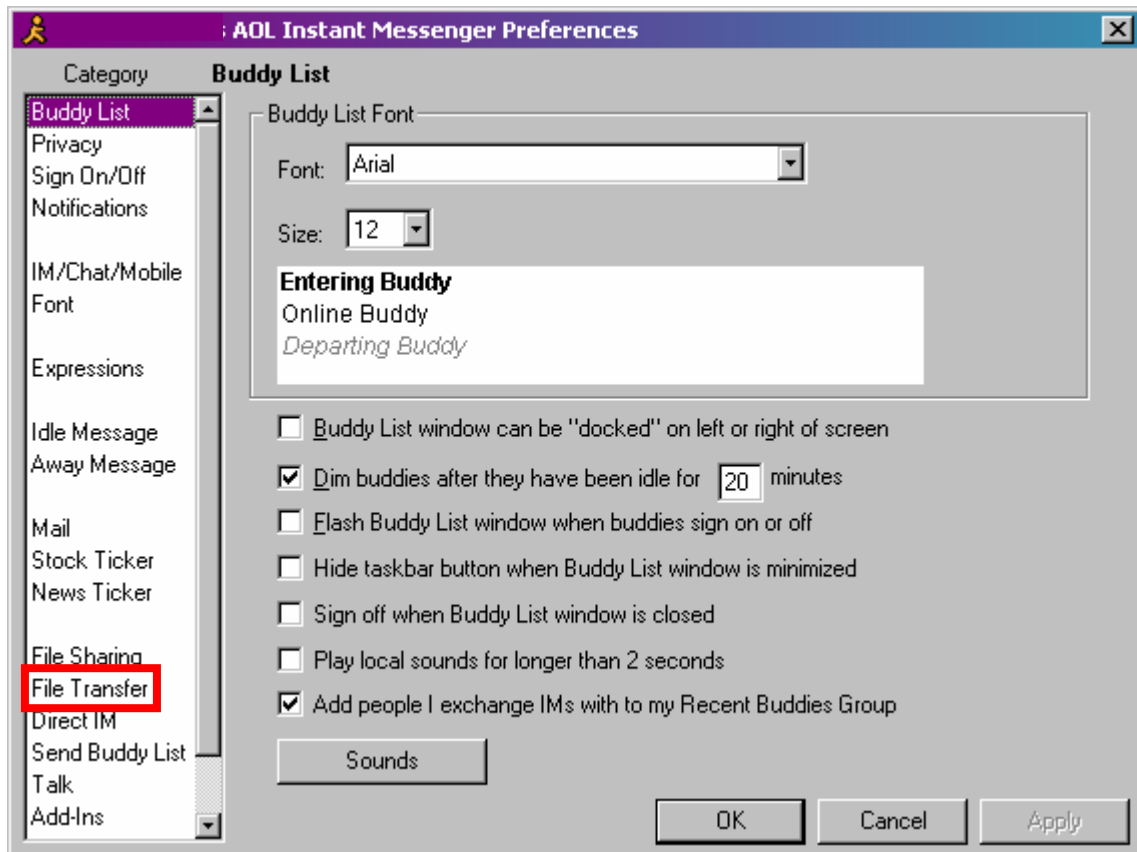

1. Once you are logged in, click on 'My AIM'.

2. Click on 'Edit Options' and then 'Edit Preferences'.

3. Click on 'File Transfer' on the left side column.

4. Under 'Receive File Permission' make sure the circle next to 'Display the Approve Dialog for files from all users' is darkened and then click 'OK.'
